Subject: Application for Backend/Fullstack Internship

Respected Sir/Ma'am,
 I hope you're doing well.

I'm **Amrith Kumaresan**, a **BS+MS graduate from IIT Madras**, actively seeking a **backend or fullstack web development internship** opportunity. I came across your company and am really interested in the kind of **[frontend/backend/fullstack]** projects your team is building.

Over the past few months, I've developed multiple **MERN-stack projects**, including:

- A **Full-Stack E-Commerce Platform** with **Redis-based token management** and **Stripe integration**
- A **Multi-Tenant SaaS Dashboard** with **role-based access control**
- A **Real-Time Video Call & Chat App** using **GetStream.io (WebSockets)**

I've attached my resume for your review. I'd love to contribute to your team and would be happy to discuss how my skills align with your current or upcoming projects.

Portfolio:

- E-Commerce: https://e-commerce-site-bh99.onrender.com
- X-Clone: https://x-clone-ovvn.onrender.com
- SaaS Dashboard: https://yard-stick.onrender.com
- Connectify (Video Call & Chat): https://connectify-j9ok.onrender.com
